

FOR IMMEDIATE RELEASE

MOLLOY : A NEW GENERATION TAKES THE HELM

Québec City, November 3, 2025 -

Molloy, a company recognized for nearly 25 years for its rigour, close relationships, and technical excellence, is entering a new chapter in its history with the appointment of Alexis Corradi as General Manager. An experienced and passionate entrepreneur, he represents a next-generation leader, people-focused, authentic, and forward-looking.

“Alexis represents the future of Molloy. We’re proud to see him take over. He shares our values and embodies the same professionalism that has built our reputation,” said Christian Samson, outgoing co-owner.

This transition is part of a structured process aimed at ensuring team stability and the continuity of operations. Alexis Corradi intends to build on Molloy’s strong legacy to reinforce its foundations, evolve the organization, and initiate a new phase of growth.

“Molloy is a solid company, shaped by skilled and dedicated people. My role is to strengthen what’s already in place with respect, rigour, and a clear vision for the future. I’m joining forces on this journey alongside my partners Vincent Doaré and Capital d’Expérience, who share my vision of a human, disciplined, and sustainable approach to leadership transition,” said Alexis Corradi, General Manager of Molloy.

This acquisition is also supported by the Banque de Développement du Canada (BDC), the Fonds régionaux de solidarité FTQ, and Desjardins Entreprises, institutional partners committed to promoting responsible, locally rooted entrepreneurship that contributes to Québec’s economic prosperity.

With this transition, Molloy reaffirms its commitment to continued growth, remaining true to its values and its people, while strengthening its position within a dynamic business ecosystem.

About Molloy:

Founded in 2001, Planification d’Entrepôts Molloy specializes in the design, distribution, and installation of warehouse equipment. Through its technical expertise and partnerships with trusted suppliers, Molloy helps businesses enhance productivity by planning, designing, and optimizing every square foot of their warehouse space. Offering an extensive range of solutions, including racking systems, wire mesh partitions and guardrails, mezzanines, dock levelers, as well as inspection and maintenance services, Molloy enables organizations to build efficient and safe warehouse environments where every space counts.
